In this final group sort the two people that assisted me both agreed that I should add an extra group. Instead of having a “Services & Payment” group, I can separate the two. With the groups being separate, we decided to remove the “Square Reader” from “Services” and place it in the “Payment” group. Also, this provided the “We Also Have Food” subgroup with a place that makes sense under the “Services” group. These additions gave all of my subgroups a destination.
